CORE CAPABILITIES

Disaster Recovery Operations

- Stafford Act recovery program support (Public Assistance, Individual Assistance, HMGP, BRIC)
- Recovery framework implementation (NDRF, FEMA RSF coordination)
- Grants lifecycle: scoping, application, obligation, closeout, audit response
- Damage assessment and project formulation support

AI-Enabled Decision Support

- Geospatial and remote-sensing analytics for damage assessment
- Resource allocation and claims-triage models for disaster operations
- AI governance aligned to NIST AI RMF and federal AI procurement guidance
- Data integration across OpenFEMA, NWS/NOAA, USGS, HIFLD, and partner feeds

DIFFERENTIATORS & CUSTOMERS

Why Disaster Recovery Advisors

- Practitioner-led: recovery expertise paired with modern AI/data engineering
- Plain-English deliverables built for emergency managers and grant officers, not back-office IT
- Builds reusable models, dashboards, and playbooks — not throwaway slideware

Customer Segments Served

- Federal civilian: FEMA, DHS/CISA, HHS/ASPR
- State emergency management agencies (CalOES, NY DHSES, TX DEM, FL DEM, others)
- Tribal and territorial governments and their emergency management offices
- Local jurisdictions and prime contractors needing specialized recovery expertise
